

H238 Casa Joaquim - Floor Plan description

Casa Joaquim is an authentic three floor holiday home of very good standard. It is situated as neighbour to the owners' farm, but it has a lot of privacy, not at least in the 8.000 m2 garden away from the kind owners' house.

Here you find a tennis court, petanque field and of course the very big swimming pool and a smaller pool for small children. By the pool, there is a very nice terrace area. Alternatively, there is a terrace next to the house.

All bedrooms are modern with own bathroom and air conditioning. You can see the distribution here.
